Profile

Motivated Junior Frontend developer with hands-on experience in creating responsive websites and interactive UI components. Looking for an entry-level role where I can apply my skills in HTML, SCSS/CSS, JavaScript and other to contribute to real projects and grow within a professional team.

Education

Bachelor of Theology

Sep 2020 - Jun 2024

Theological Seminary, Odesa

Before the outbreak of the military events in Ukraine, I had completely different plans. After finishing my studies at the seminary, I became interested in the IT field.

Certificates

Front-End Basic

Jul 2025

Hillel IT School

- Completed comprehensive training in HTML, CSS, and JavaScript fundamentals for front-end development
- Gained hands-on experience building responsive web pages and user interfaces
- Learned to use modern development tools such as Git and VS Code
- Developed projects demonstrating basic front-end skills and problem-solving abilities

Front-End Pro

Jan 2026

Hillel IT School

In progress: JavaScript fundamentals, DOM, React, Node.js, TypeScript etc.

My Projects

- GreenShop – landing page online store with responsive layout (product cards, forms, dropdown menu, preloader, carousel).
See on GitHub: <https://github.com/VSsmborsk/Greenshop>
- Brex – first experience on Bootstrap.
See on GitHub: <https://github.com/VSsmborsk/Brex>
- Thalby – landing page with responsive layout (burger menu, carousel, forms, grid+flexbox etc.).
See on GitHub: <https://github.com/VSsmborsk/Thalby>
- Createx – first multi-page website, larger in scope than the others, built with use of HTML, CSS, SCSS, JS plugins (carousel, burger menu, accordion and modal window) and responsive layout techniques.
See on GitHub: <https://github.com/VSsmborsk/Createx>
